CORALINE HEAVY DUTY ALUMINIUM TRAILERS

At Coraline we could see the need to build the best strong, rust proof frame trailer that would last the test of time. So we went about creating it with these features:

- Heavy Duty Full Aluminium Construction
- Galvanised Springs and Axles
- Self Aligning
- Easy Rolling System
- Drive On
- LED Submersible Lights

If you want the best boat trailer there is only one choice **CORALINE**.

Coraline Boats have standard models available but are more than happy to customise a boat to your specific requirements.

Each Coraline boat is a work of art with a signature of its own. Designed with an eye for detail using the best quality materials and production techniques.

These recreational and commercial vessels meet the highest safety standards with each boat backed by a manufacturer 5 year Limited Structural Hull Warranty. 36 standard models are available.

Coraline boats are handcrafted by accredited trade persons. To create the highest possible quality control each boat is built from start to finish by only one builder and QC inspected upon completion.

Specifications subject to change without notice.
